

# Enable BTR-155 Bluetooth earpiece on TLK100i

Enable Bluetooth in TLK100i:

The screenshot shows the Motorola Solutions TLK100i management interface. The left sidebar contains navigation links: Radioudlejning 6x TLK-100, Radioudlejning 6x TLK-100, Users, TalkGroups, and TLK 100s. The main area displays a table of devices. The 'Spare 2' device is selected, and the 'Actions' menu is open, showing options like 'Enable Bluetooth' and 'Disable Bluetooth'. An orange arrow points to the 'Enable Bluetooth' option.

NAME	DEVICE ID	SERIAL NUMBER	WIFI MODEM	CELL MODEM	CONNECTED	ACTIONS
Dan	WGPRD-XPLFFGQK	341AVJ0058	On	On	Yes	Manage Wifi Networks Manage Bluetooth Accessories Enable Wifi Disable Wifi Enable Location Disable Location
Jesper	WGPRD-VJZARJCD	341AVJ0670	On	On	Yes	Enable Location Disable Location
Morten	WGPRD-NBUUKHZC	341AVJ0308	On	On	Yes	Enable Bluetooth Disable Bluetooth
Ralf	WGPRD-FAGBMDWK	341AVJ0575	On	On	Yes	Stun UnStun Delete
Spare 1	WGPRD-EADWYJVG	341AVJ0203	On	On	Yes

Manage User

Replace TLK 100

Restart TLK 100

Refresh Cellular Status

You need to have the accessory MAC address.

You can find the MAC address by connecting BTR-155 to the computer and use Windows to read this.

Enter it like this

Save the settings and the earpiece can be connected.

The BTR-155 shall be set into LTE modes (Mode 1, pin code 0000)

Then all is set and BTR-155 works.
